Digital Retina Imaging (DRI) Report To Primary Care Physician

Regarding: Mr. Lassie Slouchman, of 145 Menial St., Brewster NY

Referral: For Stage #3 Nicking seen in multiple locations

Nicking grade #1 as found in this patient is a strong and advanced indicator of future cardiovascular risk. This patient has been informed of the severity of this diagnosis. Below is an inserted copy of one such crossing seen in DRI.

Lifestyle Factors:

- Negative for tobacco use
- Negative for alcohol abuse
- Negative for pharmaceuticals
- Positive for Obesity
- Negative for exercise
- Negative for carbohydrate restriction
- Negative for knowledge of unhealthy oils

TX: I will be seeing this patient at yearly intervals looking for lack of progression in vascular changes or regression.

I have requested that this patient see you for a full medical evaluation.
